

# Race regulations

## ConcreteCanoeRace 2026

1. Every institution must appoint two captains. They will receive detailed instructions during the captains' briefing at the event and are expected to inform their team members accordingly.

2. The competition consists of the following races:

3. The 50 m, 100 m, and 200 m races will be divided into three categories:

4. For the surprise event, only one canoe per team may participate. The canoe must be able to hold three people. Two participants will paddle, while the third participant will take part in the surprise element of the event.

5. The general structure of the tournament consists of multiple stages in which several canoes compete simultaneously.

6. In order to compete, canoes must:

- Comply with regulations
- Display a unique identifier, such as a name, number, or distinctive paintwork.

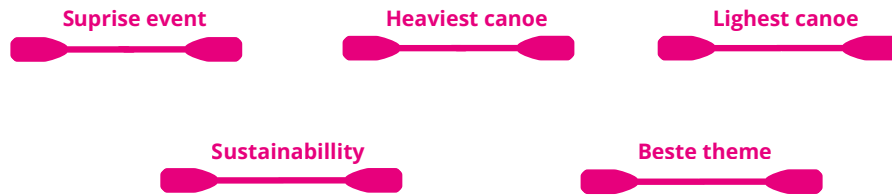

7. Canoes must be in position at the start of the preceding race. The competition management may impose penalties if a team does not comply with this rule. Penalties may include a lower ranking, complete disqualification, or time penalties.

8. If a team makes a false start, does not remain in its lane, or causes obstruction in any other way, the competition management will decide on the appropriate penalty. If a canoe obstructs another canoe, the race director may decide whether the obstructed team is allowed to advance to the next round, provided that the team was in a qualifying position at the time of obstruction. The decision of the competition management is final.

9. After each race, the course must be cleared immediately.

10. Communication between teams and the competition organization must take place through the captains.

11. Prizes will be awarded to the three fastest teams in each race category. Additional prizes may be awarded based on other specified aspects.

12. A canoe cannot be awarded a prize if it has not completed an entire race.

13. A panel of experts from the construction industry will award the prizes. The decisions of this panel are final.
